Purpose

The purpose of this document is to provide the requirements and conditions for electronically filing the FinCEN Suspicious Activity Report (FinCEN SAR). Electronic filing of this report will be through the BSA E-Filing System operated by the Financial Crimes Enforcement Network (FinCEN). For more information on the BSA E-Filing System and to register, please go to <http://bsaefiling.fincen.treas.gov>. This document should be used in conjunction with the “General Specifications for Electronic Filing of Bank Secrecy Act (BSA) Reports” (General Specifications) available at http://www.fincen.gov/forms/files/e-filing_GENspecs.pdf. It is recommended that you refer to the General Specifications first, and then the specific information contained in this document. If the General Specifications conflict with any specific requirement found in this document, the specific requirement should be followed. Additional instructions concerning the data to be entered in the electronic file are found in Attachment C – Electronic Filing Instructions.

Electronic Filing

The BSA E-Filing System Batch File Testing Procedures are detailed in a separate document that can be accessed on the BSA E-Filing System web site at <http://bsaefiling.fincen.treas.gov> under Quick Links. For purposes of this document, the filer is the organization responsible for filing the FinCEN SAR and the transmitter is the organization responsible for preparing the electronic files. The filer and transmitter may be the same or different organizations. Filers are required to retain a copy of the FinCEN SAR data and all original supporting documentation or business record equivalent for five years from the date of the suspicious activity report. All supporting documentation must be made available to appropriate authorities upon request.

File Organization

The following data controls must be followed or the FinCEN SAR electronic file will be rejected. The data records must be in the following sequence:

Transmitter (1A) Record – Required

There can only be one of this record type and it must be the first record on the file.

Filing Institution Information (2A) Record – Required

There must be one of this record type for each Filing Institution on the file. This record type immediately precedes all records related to the filing institution identified in Part IV. The 2A record may be associated with multiple FinCEN SARs.

Financial Institution Where Activity Occurred (2B) Record – Required

There must be at least one of this record type under the Filing Institution Information (2A) Record for each financial institution where the suspicious activity occurred. This record type precedes all records related to the financial institution(s) identified in Part III for a particular FinCEN SAR. Filers are permitted to associate up to 99 2B records for a single FinCEN SAR. Multiple 2B records for a single FinCEN SAR must occur prior to the associated Suspicious Activity Information (3A) Record.

Branch or Office Institution Where Activity Occurred (2C) Record

Attachment B – Error Correction Instructions

This attachment identifies the requirements and procedures for correcting FinCEN SAR errors reported to batch filers during the FinCEN SAR acknowledgement process.

Error Categories:

There are two types of errors identified in batch files: format errors that may result in automatic rejection of a batch file and file errors that represent errors in data entered in individual fields. Fatal format errors prevent the batch file from being processed. For example, error F18 “A required 9Z record is missing from the submitted file” is a fatal error because each batch file must contain a 9Z record. Error S224 “Financial institution type is blank” is a file error because it indicates data is missing from a record.

File errors are classified as primary or secondary errors, depending on their importance. Primary errors are file errors that violate electronic filing requirements or instructions and so degrade FinCEN SAR data quality that they must be corrected. Primary errors make it difficult for regulators, analysts, and law enforcement investigators to locate the FinCEN SARs in the database or identify the nature and circumstances of the suspicious activity. Examples of such errors include blank last names or legal names, missing financial institution Employer Identification Numbers, or an invalid entry in the suspicious activity date field. Attachment A – Error Code List identifies primary errors by adding an asterisk (*) to the four digit error code.

Secondary errors are file errors that violate electronic filing requirements or instructions but have a lesser impact on FinCEN SAR data quality. Examples of secondary errors are ZIP Codes that end in four zeros (e.g. 123450000), missing dates of birth, or invalid telephone numbers.

Correction Requirements:

Filers should immediately correct and resubmit a batch file rejected for fatal errors when notified by FinCEN the batch file was not accepted. Rejection of a batch file does not relieve the filer of the responsibility to file a FinCEN SAR within the time frames established by the BSA.

When a batch file is accepted by the BSA E-Filing Program, filers receive an acknowledgement file that records all errors identified in the batch file. A FinCEN SAR that contains primary errors must be re-filed as a corrected report with the primary errors and any secondary errors corrected. FinCEN SARs that contain only secondary errors need not be corrected. FinCEN requires that filers prevent all reported errors in their future filings.

FinCEN recommends that primary error corrections be made no later than 30 days after receiving error notifications. Furthermore, FinCEN recommends that filers remedy any systemic problems in their electronic submissions within 30 days of receiving error notifications. **If technical issues prevent filers from implementing corrections within these time frames, filers should notify FinCEN by writing to:**

Financial Crimes Enforcement Network
Office of Compliance
P.O. Box 39
Vienna, VA 22183

This correspondence should explain the technical issues that prevent meeting this time frame, provide an estimate of when the issues will be resolved, and include a contact name and telephone number.

Correction Procedures:

A FinCEN SAR batch file is rejected when it contains fatal format errors. The filer must correct all errors identified in the batch file and resubmit the batch file to BSA E-Filing. Because they were not accepted by FinCEN, all FinCEN SARs in the re-submitted batch file must retain their original Type of Filing. Do not identify FinCEN SARs in a re-filed batch file as corrected reports unless they originally were filed as corrected reports in the rejected batch file.

If errors in an accepted batch file involve primary file errors, filers must file corrected reports on all FinCEN SARs containing primary file errors using the following procedures:

- Make the corrections to both the primary and secondary errors in all FinCEN SARs that contains primary errors. Filers are encouraged, but not required, to correct any secondary errors in FinCEN SARs that contained no primary errors.
- Enter "B" at Field Position 9 "Type of Filing" in the Suspicious Activity Information (3A) Record for each corrected FinCEN SAR.
- Enter the prior report's BSA Identifier from the FinCEN SAR acknowledgement file at Field Position 12-25 "Prior Report Document Control/File Number" in the Suspicious Activity Information (3A) Record for each corrected FinCEN SAR.
- Ensure that Field Position 1145-1152 contains a new "Date Filed" in the Suspicious Activity Information (3A) Record for each corrected FinCEN SAR.
- Complete all other data in the FinCEN SARs in their entirety.
- Record the nature of all corrections at the beginning of the initial Narrative Description (5A) Record for each corrected FinCEN SAR.
- Retransmit the corrected FinCEN SARs in a new batch file. Do not re-transmit the original batch file because this will cause duplicate database entries on any FinCEN SARs that were not corrected.

FinCEN monitors FinCEN SAR filings to identify financial institutions that fail to correct primary errors in prior filings or to prevent previously-reported errors of any type in future filings. FinCEN may report such failures to a financial institution's primary federal/state regulator or BSA examiner.

Attachment C – Electronic Filing Instructions

Safe Harbor: Federal law (31 U.S.C. 5318(g)(3)) provides financial institutions complete protection from civil liability for all reports of suspicious transactions made to appropriate authorities, including supporting documentation, regardless of whether such reports are filed pursuant to a regulatory requirement or on a voluntary basis. Specifically, the law provides that a financial institution, and its directors, officers, employees, and agents, that make a disclosure of any possible violation of law or regulation, including in connection with the preparation of suspicious activity reports, “shall not be liable to any person under any law or regulation of the United States, any constitution, law, or regulation of any State or political subdivision of any State, or under any contract or other legally enforceable agreement (including any arbitration agreement), for such disclosure or for any failure to provide notice of such disclosure to the person who is the subject of such disclosure or any other person identified in the disclosure.”

Confidentiality of SARs:

A FinCEN Suspicious Activity Report (FinCEN SAR), and any information that would reveal the existence of the FinCEN SAR (collectively, “SAR information”), are confidential, and may not be disclosed except as specified in 31 U.S.C. 5318(g)(2) and in FinCEN’s regulations (31 CFR Chapter X).

SAR Sharing:

FinCEN has concluded that a depository institution that has filed a SAR may share the SAR, or any information that would reveal the existence of the SAR, with an affiliate, as defined in FinCEN Guidance FIN-2010-G006 issued January 3, 2011, provided the affiliate is subject to a SAR regulation. The sharing of SARs with such affiliates facilitates the identification of suspicious transactions taking place through the depository institution’s affiliates that are subject to a SAR rule. Therefore, such sharing within the depository institution’s corporate organizational structure is consistent with the purposes of Title II of the BSA.

Prohibition on Disclosures by Financial Institutions:

Federal law (31 U.S.C. 5318(g)(2)) provides that a financial institution, and its directors, officers, employees, and agents who, pursuant to any statutory or regulatory authority or on a voluntary basis, report suspicious transactions to the government, may not notify any person involved in the transaction that the transaction has been reported. Provided that no person involved in the suspicious activity is notified, 31 CFR Chapter X clarifies that the following activity does not constitute a prohibited disclosure:

- Disclosure of SAR information to certain governmental authorities or other examining authorities that are otherwise entitled by law to receive SAR information or to examine for or investigate suspicious activity;

- Disclosure of the underlying facts, transactions, and documents upon which a FinCEN SAR is based; and
- For those institutions regulated by a Federal functional regulator (Federal bank regulatory agencies, the Securities and Exchange Commission (SEC), and the Commodity Futures Trading Commission (CFTC)), the sharing of SAR information within an institution's corporate organizational structure, for purposes that are consistent with the Bank Secrecy Act, as determined by regulation or guidance.

Prohibition on Disclosures by Government Authorities:

Federal law (31 U.S.C. 5318(g)(2)) also provides that an officer or employee of any Federal, state, local, tribal, or territorial government within the United States who has knowledge that such report was made, may not disclose to any person involved in the transaction that the transaction has been reported, other than as necessary to fulfill the official duties of such officer or employee. FinCEN's regulations clarify that "official duties" must be consistent with Title II of the Bank Secrecy Act and shall not include the disclosure of a SAR, or any information that would reveal the existence of a SAR, in response to a request for disclosure of non-public information or a request for use in a private legal proceeding, including a request pursuant to 31 CFR § 1.11.

FinCEN SAR Filing Instructions:

1. Who Must File: Certain financial institutions operating in the United States shall file with FinCEN, to the extent and in the manner required by 31 CFR Chapter X and 12 CFR §§ 21.11, 163.180, 208.62, 353.3, and 748.1, a report of any suspicious transaction relevant to a possible violation of law or regulation. The following financial institutions are required to file a FinCEN SAR: Banks (31 CFR §1020.320) including Bank and Financial Holding Companies (12 CFR § 225.4); Casinos and Card Clubs (31 CFR § 1021.320); Money Services Businesses (31 CFR § 1022.320); Brokers or Dealers in Securities (31 CFR § 1023.320); Mutual Funds (31 CFR § 1024.320); Insurance Companies (31 CFR § 1025.320); Futures Commission Merchants and Introducing Brokers in Commodities (31 CFR § 1026.320); and Residential Mortgage Lenders and Originators (31 CFR § 1029.320).

2. Filing Deadlines: A FinCEN SAR shall be filed no later than 30 calendar days after the date of the initial detection by the reporting financial institution of facts that may constitute a basis for filing a report. If no suspect is identified on the date of such initial detection, a financial institution may delay filing a FinCEN SAR for an additional 30 calendar days to identify a suspect, but in no case shall reporting be delayed more than 60 calendar days after the date of such initial detection. In situations involving violations that require immediate attention, such as terrorist financing or ongoing money laundering schemes, the financial institution shall immediately notify by telephone an appropriate law enforcement authority in addition to filing timely a FinCEN SAR. Financial institutions wishing voluntarily to report suspicious

transactions that may relate to terrorist activity may call FinCEN's Financial Institutions Hotline at 1-866-556-3974 in addition to filing timely a FinCEN SAR.

3. Filing Requirements for Financial Institutions: A financial institution must report any transaction that requires reporting under the terms of 31 CFR Chapter X if the transaction is conducted or attempted by, at, or through the financial institution and involves or aggregates at least \$5,000 (\$2,000 for money services businesses, except as provided in Section 6 of this document) and the financial institution knows, suspects, or has reason to suspect that the transaction or pattern of transactions of which the transaction is a part:

- Involves funds derived from illegal activity or is intended or conducted in order to hide or disguise funds or assets derived from illegal activity (including, without limitation, the ownership, nature, source, location, or control of such funds or assets) as part of a plan to violate or evade any Federal law or regulation or to avoid any transaction reporting requirement under Federal law or regulation;
- Is designed, whether through structuring or other means, to evade any requirement of 31 CFR Chapter X or any other regulation promulgated under the Bank Secrecy Act, Public Law 91-508, as amended, codified at 12 U.S.C 1829b, 12 U.S.C. 1951-1959, and 31 U.S.C. 5311-5332;
- Has no business or apparent lawful purpose or is not the sort in which the particular customer would normally be expected to engage, and the financial institution knows of no reasonable explanation for the transaction after examining the available facts, including the background and possible purpose of the transaction, or
- Involves the use of the financial institution to facilitate criminal activity.

4. Additional Filing Instructions for Banks: In addition to the above requirements, a bank (as defined in 31 CFR § 1010.100) must file a FinCEN SAR for activity (as required by 31 CFR § 1020.320 and 12 CFR §§ 21.11, 163.180, 208.62, 353.3, and 748.1) involving:

- **Insider abuse involving any amount.** Whenever the bank detects any known or suspected Federal criminal violations, or pattern of criminal violations, committed or attempted against the financial institution or involving a transaction or transactions conducted through the financial institution, where the bank believes that it was either an actual or potential victim of a criminal violation, or series of criminal violations, or that the bank was used to facilitate a criminal transaction, and the bank has a substantial basis for identifying one of its directors, officers, employees, agents or other institution-affiliated parties as having committed or aided in the commission of a criminal act regardless of the amount involved in the violation.

- **Violations aggregating \$5,000 or more where a suspect can be identified.** Whenever the bank detects any known or suspected Federal criminal violation, or pattern of criminal violations, committed or attempted against the bank or involving a transaction or transactions conducted through the bank and involving or aggregating \$5,000 or more in funds or other assets, where the bank believes that it was either an actual or potential victim of a criminal violation, or series of criminal violations, or that the bank was used to facilitate a criminal transaction, and the bank has a substantial basis for identifying a possible suspect or group of suspects. If it is determined prior to filing this report that the identified suspect or group of suspects has used an “alias,” then information regarding the true identity of the suspect or group of suspects, as well as alias identifiers, such as drivers’ licenses or social security numbers, addresses and telephone numbers, must be reported.
- **Violations aggregating \$25,000 or more regardless of a potential suspect.** Whenever the bank detects any known or suspected Federal criminal violation, or pattern of criminal violations, committed or attempted against the bank or involving a transaction or transactions conducted through the bank and involving or aggregating \$25,000 or more in funds or other assets, where the bank believes that it was either an actual or potential victim of a criminal violation, or series of criminal violations, or that the bank was used to facilitate a criminal transaction, even though there is no substantial basis for identifying a possible suspect or group of suspects.

5. Voluntary FinCEN SAR Filings: Financial institutions may also file with FinCEN a report of any suspicious transaction that it believes is relevant to the possible violation of any law or regulation but whose reporting is not required by 31 CFR Chapter X. A voluntary filing does not relieve a financial institution from the responsibility of complying with any other reporting requirements imposed by the SEC, the CFTC, a self-regulatory organization (SRO) (as defined in section 3(a)(26) of the Securities Exchange Act of 1934, 15 U.S.C. 78c (a)(26)), or any Registered Futures Association (RFA) or Registered Entity (RE) (as these terms are defined in the Commodity Exchange Act, 7 U.S.C. 21 and 7 U.S.C. 1a(29)).

6. Exceptions: The following are exceptions to the FinCEN SAR reporting requirements:

- A bank, casino, broker or dealer in securities (BD), futures commission merchant (FCM), or introducing broker in commodities (IB-C) is not required to file a FinCEN SAR for a robbery or burglary committed or attempted against the financial institution when the robbery or burglary is reported to appropriate law enforcement authorities.
- A FinCEN SAR is not required to be filed for lost, missing, counterfeit, or stolen securities that are reported pursuant to the requirements of 17 CFR § 240.17f-1.
- A BD is not required to file a FinCEN SAR on violations of any of the Federal securities laws or the rules of a SRO by the BD or any of its officers, directors, employees or other

registered representatives, other than a violation of 17 CFR § 240.17a-8 or 17 CFR § 405.4, so long as such violation is appropriately reported to the SEC or an SRO.

- An FCM or an IB-C, or any of its officers, directors, employees or associated persons, is not required to file a FinCEN SAR for a violation of the Commodity Exchange Act (7 U.S.C. 1 *et seq.*), the regulations of the CFTC (17 CFR Chapter 1), or the rules of any RFA or RE (as those terms are defined in the Commodity Exchange Act, 7 U.S.C. 21 and 7 U.S.C. 1a(29)), as long as such violation is appropriately reported to the CFTC, an RFA, or RE. This exception does not apply to violations of 17 CFR § 42.2.
- An insurance company is not required to report the submission to it of false or fraudulent information to obtain a policy or make a claim, unless the company has reason to believe that that the false or fraudulent submission relates to money laundering or terrorist financing.
- An issuer of money orders or traveler's checks is not required to report a transaction or pattern of transactions when the transactions were identified through a review of clearance records or other similar records and the transaction amount or aggregated transaction amount involves funds or other assets of less than \$5,000.

7. Additional Reporting: The Bank Secrecy Act requires financial institutions to file a Currency Transaction Report (CTR) in accordance with the Department of the Treasury's implementing regulations (31 CFR § 1010.310) whenever a currency transaction exceeds \$10,000. If a currency transaction exceeds \$10,000 and is otherwise reportable as suspicious activity, the institution must file both a CTR (reporting the currency transaction) and a FinCEN SAR (reporting the suspicious activity). If a currency transaction is \$10,000 or less and is otherwise reportable as a suspicious activity, the institution should only file a FinCEN SAR. Appropriate records must be maintained in each case. Residential Mortgage Lenders and Originators are required to file Form 8300, Report of Cash Payments Over \$10,000 Received in a Trade or Business, instead of a CTR.

FinCEN SAR Electronic Filing Instructions

General Instructions:

1. Filing Reports: This report should be E-filed through the Financial Crime Enforcement Network (FinCEN) BSA E-Filing System. Go to <http://bsaefiling.fincen.treas.gov> to register if not already registered. Financial institutions that file reports individually will use FinCEN's discrete FinCEN Suspicious Activity Report (FinCEN SAR) to file their reports. Financial institutions that use batch filing or system-to-system filing to transmit multiple reports must transmit files that conform to the requirements of FinCEN's "General Specifications for Electronic Filing of Bank Secrecy Act (BSA) Reports" (General Specifications) and "FinCEN Suspicious Activity Report (FinCEN SAR) Electronic Filing Requirements."

2. Recording Information: Complete each FinCEN SAR by providing as much information as possible. Although all items should be completed fully and accurately, items marked with an asterisk (*) must be completed even when the required data are unknown. Filers must follow the electronic filing instructions for these items by providing the required data or, if instructions permit, by checking the box “Unknown” to indicate that the required data was unknown. Items that do not begin with an asterisk must be completed if the data are known and will be left blank if the data are unknown. If an item’s instructions differ from this general instruction, the item instructions must be followed. These instructions supersede all prior SAR instructions and FinCEN guidance on use of special responses in SAR items when the data are unknown or not available in an electronic filing. Therefore, the use of special responses such as “UNKNOWN,” “NONE,” “NOT APPLICABLE,” or “XX” and their variants is prohibited in the FinCEN SAR.

NOTE: Throughout these instructions the phrase “check box” and similar wording is used to denote checking an appropriate box in certain data items on the discrete FinCEN SAR. This is deemed equivalent to instructions in the Electronic Filing Requirements to enter appropriate codes in the same data items in transmission files. For example, the requirement to check box 1 “Initial report” in the discrete FinCEN SAR is the equivalent of entering code “A” in “Type of Filing” in the Electronic Filing Requirements Suspicious Activity Information (3A) Record. In some discrete FinCEN SAR data items check boxes have been replaced by drop-down lists.

NOTE: Throughout these instructions there are requirements to complete items multiple times in a discrete FinCEN SAR if the filer has multiple entries for that item. This is deemed equivalent to completing multiple records for that item in the Electronic Filing Requirements. For example, these instructions direct filers to complete multiple Item 6 “Alternate name” fields if the filer has knowledge of multiple alternate names for a subject. This is equivalent to a batch filer completing multiple Subject Alternative Name (4D) Records for the same subject.

3. Corrected/Amended Reports: A corrected report on a previously-filed FinCEN SAR or prior SAR versions must be filed whenever errors are discovered in the data reported in that FinCEN SAR. An amended report must be filed on a previously-filed FinCEN SAR or prior SAR versions whenever new data about a reported suspicious activity is discovered and circumstances will not justify filing a continuing report (see General Instruction 4). Both corrected and amended reports must be completed in their entirety, with the necessary corrections or amendments made to the data. In both cases box 1b “Correct/Amend prior report” must be checked. If known, the prior report’s Document Control Number (DCN) or BSA Identifier (BSA ID) must be entered in field 1e. If the prior report’s DCN or BSA ID is unknown, field 1e should be zero-filled. All corrections or amendments must be described completely at the beginning of the Part V Suspicious Activity Information – Narrative section. If a FinCEN SAR is filed to correct or amend a prior SAR version, the FinCEN SAR must be completed in its entirety. This includes FinCEN SAR items that apply to the suspicious activity but were not present on the prior SAR version. FinCEN SAR items not on the prior SAR version need not be

described in the narrative. BSA IDs, which replaced DCNs, are provided in acknowledgement records sent to member financial institutions by the BSA E-Filing System.

4. Continuing Reports: A continuing report should be filed on suspicious activity that continues after an initial FinCEN SAR is filed. Continuing reports should be filed at least every 90 days until the suspicious activity ceases. Continuing reports must be completed in their entirety, including the information about all subjects involved in the suspicious activity and all financial institutions where the activity occurred. The continuing report Part V narrative should include all details of the suspicious activity for the 90-day period encompassed by the report, and only such data from prior reports as is necessary to understand the activity. Do not reproduce the narratives from prior reports in the continuing report. Provide both the dollar amount involved in the suspicious activity for the 90-day period in Item 26 and the cumulative dollar amount for the current and all prior related reports in Item 28. If continuing losses are involved for any financial institution recorded in Part III, record the 90-day loss in Item 63 and the cumulative loss in Part V.

5. Joint Report: A FinCEN SAR may be jointly filed when two or more distinct financial institutions collaborate in filing a single FinCEN SAR on suspicious activity involving all of the collaborating financial institutions. Financial institutions are “distinct” for this purpose when they are different legal entities; a financial institution is not distinct from its own branches. Joint filing of a single FinCEN SAR is prohibited when any of the Part I “Subject Information” subjects of the would-be jointly filed FinCEN SAR have a box in Item 21 checked that identifies the subject as a director, employee, officer, or owner/controlling shareholder of the filing institution or a would-be joint filer. In that case separate FinCEN SARs must be filed by each institution. To be a jointly-filed FinCEN SAR, box 1d “Joint report” must be checked. In addition, the filing institution listed in Part IV “Filing Institution Contact Information” must identify in Part V “Suspicious Activity Information – Narrative” which Part III “Information about Financial Institution Where Activity Occurred” institutions are joint filers. The filing institution must include joint filer contact information in Part V, along with a description of the information provided by each joint filer. Record joint filer information in Part III Items 47 through 63 and joint filer branch information in Part III Items 64 through 77. Filing a joint FinCEN SAR does not relieve joint filers of the responsibility to report information about the suspicious activity that was not included in the joint filing. A filing institution cannot designate another institution as a joint filer unless the designated joint filer is aware of and approves the FinCEN SAR filing in its entirety. A filer that designates another institution as a joint filer without gaining that institution’s agreement to the joint filing and approval of the contents of the joint filing may have committed a willful violation of the Bank Secrecy Act, if the improper designation leads to the disclosure of the SAR filing to a person not entitled to information about the filing. Both filers and joint filers are required to keep copies of the FinCEN SAR and their own supporting documentation for five (5) years after the date of filing.

6. Supporting Documentation: Filers can include a single Microsoft Excel compatible comma separated values (CSV) file with no more than one megabyte of data as an attachment to the

FinCEN SAR. The contents of this file must be described in Part V. This file would be most suitable for documenting transaction records that are too numerous to record in Part V. Do not include any other supporting documentation with the FinCEN SAR. Instead, describe in Part V other supporting documentation not included in the file. Filers must retain all supporting documentation or a business record equivalent for five (5) years from the date of the report (31 CFR § 1010.430). All supporting documentation (such as copies of instruments; receipts; sale, transaction or clearing records; photographs; and surveillance audio or video recordings) must be made available to appropriate authorities upon request. See Attachment D for information on attaching comma separated (.CSV) files to a FinCEN SAR filing.

7. Addresses: For addresses in the U.S., Canada, or Mexico enter the permanent street address, city, two or three letter state/territory/province code, ZIP Code or foreign postal code, and two letter country code for the individual or entity recorded in Part I, Part III, or Part IV. Provide the apartment number or suite number, if known, following the street address. A non-location address such as a post office box or rural route number should be used only if no other street address information is available. ZIP Codes must be five or nine digits. ZIP Codes and foreign postal codes must be entered without formatting or special characters such as spaces or hyphens. For example, the ZIP Code 12354-6120 would be entered as 123546120. The foreign postal code HKW 702 would be entered HKW702. For other foreign addresses enter the street address, city, postal code, and two letter country code or address equivalent. If a foreign address contains other address information that does not conform to the FinCEN SAR address format, record equivalent address information in the FinCEN SAR address items and the full address in Part V. Complete any address item that is known, even if the complete address is unknown. No abbreviations are permitted in city names, which must be completely spelled out. A U.S. city name must match the city name used by the U.S. Postal Service for the associated state and ZIP Code. For U.S. address use only the authorized U.S. Postal Service state, territory, or military address abbreviations found at <https://www.usps.com/ship/official-abbreviations.htm>. For Canadian provinces and territories use the Canada Post Corporation codes found at <http://www.canadapost.ca/tools/pg/manual/PGaddress-e.asp#1380608>. For Mexican states and territories use the ISO 3166-2 three-letter codes found at http://www.commondatahub.com/live/geography/state_province_region/iso_3166_2_state_codes. For all countries use the ISO 3166-1 two-letter country codes found at http://www.iso.org/iso/country_names_and_code_elements.

8. Telephone Numbers: Record all telephone numbers, both foreign and domestic, as a single number string without formatting or special characters such as parentheses or hyphens. For example, a number in the format (NNN) NNN-NNNN would be recorded as NNNNNNNNNN. Indicate the type of telephone number provided (home, work, mobile, or fax) by checking the appropriate box. Provide the telephone extension number if known. Telephone numbers that are part of the North American Numbering Plan used by the U.S., Canada, many Caribbean countries, and current/former U.S. Pacific island protectorates must consist of an area code and seven-digit telephone number. Other foreign telephone numbers

should include the country number code. If only a partial telephone number is known record that number in the phone number item and explain in Part V that the entry is a partial number.

9. Identifying Numbers: Enter all identifying numbers as a single text string without formatting or special characters such as hyphens or periods. An identifying number in the format NNN-NN-NNNN would be entered as NNNNNNNNNN. Such numbers include account numbers, alien registration numbers, CRD, CUSIP®, driver's license numbers, state identifications, EINs, IARDs ITINs, passport numbers, RSSDs, SEC IDs, and SSNs.

10. Monetary Amounts: Record all monetary amounts in U.S. Dollars rounded up to the next whole dollar. The amount \$5,265.25 would be recorded as \$5,266. If the amount involves a foreign currency, record the currency name, amount, and country of origin in Part V. When converting a foreign currency to U.S. Dollars use an exchange rate for the date or dates the foreign currency was involved in the suspicious activity.

11. Prohibited Words and Phrases: Do not use the following words or variations of these words in text fields, other than in Part V:

- a. AKA
- b. COMPUTER GENERATED
- c. CUSTOMER
- d. DBA
- e. NON CUSTOMER
- f. NONE
- g. NOT APPLICABLE
- h. OTHER
- i. SAME
- j. SAME AS ABOVE
- k. SEE ABOVE
- l. SEE NARRATIVE
- m. SIGNATURE CARD
- n. T/A
- o. UNKNOWN
- p. VARIOUS
- q. XX

12. Name Editing Instructions: Because many names do not consist of a single first name, middle name, and last name, care must be taken to ensure these names are entered properly in the BSA SAR. This is especially important when there are separate fields for the last name, first name, and middle name. Some names have multiple surnames (family names) or multiple given names that do not include a middle name. Others may not be written in [first name] [middle name] [last name] order. Multiple surnames must be entered in the last name field. For

example, Hispanic names may be written in the order of given name, father's last name, and mother's last name, e.g., "Juan Vega Santiago." Thus the surname "VEGA SANTIAGO" would be entered in the last name field with "JUAN" entered in the first name field. Some Hispanic surnames consist of three names (e.g., father's last name, mother's last name, and husband's father's last name in the case of a married woman). In that case all three would be entered in a last name field. Hispanic names do not have middle names, so a multiple Hispanic given name such as "Rosa Maria" would be recorded in the first name field. In some cultures names consist of multiple first names and a single family name, not necessarily in (first name) (last name) order. For example, the Korean name "Kim, Chun Nam" consists of the family name "Kim" and the first name "Chun Nam" separated by a comma and space. There is no middle name. In this case "KIM" would be entered in the last name field and "CHUN NAM" would be entered in the first name field. Nothing is entered in the middle name field. When an individual name is entered in a single name field it should be entered in [first name] [middle name] [last name] order regardless of any foreign naming conventions. Thus, "Kim, Chun Nam" would be entered as "CHUN NAM KIM" in a single name field. Punctuation and special characters should be used in names only when they are part of the name. For example, the period in "Expedia.Com" should be included because it is part of the name. Placing a period after a middle initial would be prohibited because the period is not part of the middle name. Abbreviations in names are prohibited unless an abbreviation is part of a legal name. Entry of middle initials is permitted when a middle name is unknown. A name suffix may be abbreviated, i.e. Junior can be JR, Senior can be SR, the Third can be III, etc.

Item Instructions

NOTE: Critical fields are identified with the * symbol in front of the data element number.

----- Type of Filing -----

- * 1. Check all that apply:
- a. Initial report
 - b. Correct/Amend prior report
 - c. Continuing activity report
 - d. Joint report
 - e. Prior report Document Control Number/BSA Identifier if items 1b or 1c are checked

Item *1 Type of Filing: Check box 1a "Initial report" if this is the first report filed on the suspicious activity. FinCEN SARs filed as a result of a historical or other review of past transactional activity, either directed by a regulating authority or conducted as a financial institution initiative, must always be initial reports. Check box 1b "Correct/Amend prior report" if the report corrects or amends a previously-filed report. Check box 1c "Continuing activity report" if this report involves suspicious activity reported on one or more previous reports. Continuing reports should be filed at least every 90 days on continuing suspicious activity. If this report is being jointly filed with another financial institution, check the appropriate box 1a, 1b, or 1c and box 1d "Joint report." Filers must clearly identify in Part V which Part III financial

institutions are the joint filers on the FinCEN SAR. If box 1b or 1c is checked, enter in field 1e the Document Control Number (DCN) or the BSA Identifier (BSA ID) assigned to the previous SAR by FinCEN. If the DCN or BSA ID is unknown, enter zeros in place of the unknown number. See General Instructions 3 through 5 for additional information on Type of Filing.

----- Part I: Subject Information -----

Part I Subject Information: Complete a Part I section on each known subject involved in the suspicious activity. Persons who are victims of the suspicious activity are not subjects and should not be recorded in a Part I section. Victim information, if necessary for a complete description of the suspicious activity, should be recorded in Part V. If the subject is or all subjects are unknown, complete a single Part I record with box 2b checked to show that all subject information was unavailable for critical Items 3, 4, 8, 9, 10, 11, 12, 13, 15, and 16. These critical items (denoted with an asterisk “*”) except Item 24 must be blank. Record the nature of the unknown subject(s) in Part V. If the suspicious activity involves known and unknown subjects, complete a Part I section on each known subject and record the nature of the unknown subject(s) in Part V. Do not complete Part I records on the unknown subjects when there are known subjects.

2. Check:

- a. if entity
- b. if all critical* subject information is unavailable (does not include item 24)

Item 2a Check if entity: Check box 2a if the person described in Part I is an entity and not an individual.

Item 2b Check if all critical subject information is unavailable: Check box 2b if the information in Part I is unavailable for all critical subject items except Item 24. These critical items (3, 4, 8, 9, 10, 11, 12, 13, 15, and 16) and their associated “Unknown” fields must be left blank.

Item 5 Gender: Select options 5a Male or 5b Female if individual's gender is known. Select option 5c "Unknown" if the individual's gender is unknown. Leave Item 5 blank if the subject is an entity. Item 5 (Gender) does not create an obligation for a financial institution to collect this data when such collection would be in conflict with the financial institution's obligations under any other federal law.

6. Alternate name, e.g. AKA - Individual or DBA - Entity

Item 6 Alternate name: Enter the individual's also known as (AKA) name or the entity's doing business as (DBA) name if different from the name entered in Items 3-5. If the account is closed, check the "Yes"

box. If multiple account numbers are involved in the suspicious activity, complete an additional set of account number fields for each account number. Record account numbers involved in the suspicious activity that are related to the subject even if the TIN or name of the financial institution is unknown. If the TIN of a financial institution associated with an account number entered in 24d is unknown, record the institution name and associated account number in Part V (example: "The account number 123654987 is held at First Federal Bank."). If the filer is aware that the subject has an account involved in the suspicious activity with a financial institution listed in Part III but the account number is unknown, record the financial institution TIN in Item 24a but leave the associated account number field blank. Explain the missing account number in Part V. If some dollar amounts are known while others are unknown, enter the total of all known amounts and explain the unknown amounts in Part V. If there is no amount involved in the suspicious activity, check box 26b "No amount involved." If the FinCEN SAR is a continuing report with box 1c "Continuing activity report" checked, enter only the amount involved for the time period covered by this FinCEN SAR. ----- * Part V Suspicious Activity Information – Narrative -----

The narrative section of the report is critical to understanding the nature and circumstances of the suspicious activity. The care with which the narrative is completed may determine whether the described activity and its possible criminal nature are clearly understood by investigators. Filers must provide a clear, complete, and concise description of the activity, including what was unusual or irregular that caused suspicion. This description should encompass the data provided in Parts I through III, but should include any other information necessary to explain the nature and circumstances of the suspicious activity. Filers should provide any information the filers believe necessary to better enable investigators to understand the reported suspicious activity. Narratives must be completed in English. Filers should use the following checklist as a guide for preparing the narrative:

- If filers have additional information pertaining to items in Parts I through IV this information should be recorded in the narrative and referenced to the item number.
- If this report is a corrected or amended report, complete the report in its entirety with whatever corrections or amendments were required. Describe the corrections or amendments at the beginning of the narrative.
- If this report is a continuing report, describe the circumstances surrounding the suspicious activity for the 90-day period encompassing the report. Include information from prior FinCEN SAR narratives only when it is necessary for an understanding of the nature and circumstances of the suspicious activity. Never include the entire narratives of the prior FinCEN SARs.
- If any item in the report was insufficient for recording all item data held by the filer, or if an item's instructions require entry of additional data or explanation in the narrative, record the additional data referenced by item number in the narrative.
- Information provided in other sections of the FinCEN SAR need not be repeated in the narrative unless necessary to provide a clear and complete description of the suspicious activity.
- Describe the conduct or transaction(s) that caused suspicion. If appropriate, this description should be chronological when the activity involves multiple instances or encompasses more than one day.
- Explain whether any transaction(s) involved were completed or only attempted.
- Explain who benefited and how they benefited, financially or otherwise, from the activity.
- Describe all supporting documentation and retain the documentation for five years. DO NOT include supporting documentation with the FinCEN SAR. (See General Instruction 6.)
- If the FinCEN SAR is jointly-filed, name all joint filers and describe the nature of supporting document held by the joint filers. Provide the contact office name and telephone number for each joint filer.
- Describe and retain any evidence of cover-up or evidence of an attempt to deceive federal or state examiners or others.

- Describe and retain any admission or explanation of the activity or transaction(s) provided by the subject(s), witness(s), or other person(s), including to whom and when it was given.
- Indicate where the suspicious activity took place, e.g. branch, cage, gaming pit, agent location, etc.
- Indicate whether the suspicious activity is an isolated incident or related to other activity.
- Indicate whether any U.S. or foreign currency or other negotiable instruments were involved. If foreign currency or other foreign instruments, provide the foreign amount, currency name, and country of origin.
- Indicate if there is any litigation related to the activity by specifying the name of the litigation and court where the action is pending.
- Describe the nature of losses and recoveries related to the suspicious activity, including aggregated losses and recoveries in continuing activity.
- Identify the names of financial institutions associated with account numbers when the financial institution TINs were unknown.
- If the subject is a foreign national provide all available information on the subject's passport(s), visa(s), and other identification. Include identifying data such as issuing date, country, document numbers, issuing authority, and nationality.
- If the suspicious activity involves transfers of funds to or from a foreign country or currency exchanges involving foreign currencies, identify the foreign currency, country of issue, and the source or destination of the funds.
- If a subject involved in the suspicious activity has an insider relationship with a financial institution, describe the subject's position with the financial institution and how that position related to the suspicious activity.
- Indicate if any information was excluded from this report and explain the nature of the excluded information and the reason(s) for exclusion.
- Provide information on the victims of the suspicious activity only when it is necessary for a complete understanding of the activity. DO NOT record victim information in a Part I Subject Information record.
- Provide information about the financial institution's business policies and practices only if it is necessary for a complete understanding of the suspicious activity. DO NOT include legal disclaimers in the narrative.

Add Attachment:

Filers can include with a FinCEN SAR an attachment containing tabular data (such as transaction data) that provides additional suspicious activity information not suitable for inclusion in the narrative. This file must be an MS Excel-compatible comma separated value (CSV) file with a maximum size of 1 megabyte. Discrete FinCEN SAR filers can attach this file by clicking the "Add Attachment" button on the discrete FinCEN SAR header page and following the instructions provided. Batch filers must follow the instructions in Attachment D – Batch Attachments to add CSV files to a batch file.

Attachment D – Batch Attachments

Institutions filing electronic FinCEN Suspicious Activity Reports (FinCEN SAR) may, but are not required to, attach a Microsoft Excel-compatible comma separated values (CSV) file (no larger than 1 MB) providing details in tabular form of transactions subject to the suspicious activity discussed in Part V “Narrative Description” of the FinCEN SAR.

NOTE: Please be advised that when entering data into an Excel spreadsheet prior to saving it as a comma separated (.CSV) file, the default behavior for numeric data entered into cells is to convert numeric values over 11 characters into scientific notation. For example, the value of 123456789123 is converted to 1.23457E+11 after entry. When the Excel spreadsheet is saved to a comma separated (.CSV) fill, this visible format is retained and when opened the entire original number is not displayed, 123456789123, but rather 1.23457E+11. To avoid this behavior, please ensure that your workbook cells are formatted as text prior to entering data in the cell. This can be accomplished by selecting the column, right clicking the mouse and selecting Format Cells, and then selecting Text under Category, and then OK. This must be done before entering the data, not after.

While the BSA E-Filing System limits the number of attachments for a single FinCEN SAR to one (1) CSV file, batch filers must abide by the following instructions in order to submit attachments for one or more FinCEN SAR within their batch file:

- 1. Identify which FinCEN SARs in the batch are associated with attachments**

Ensure *attachment indicator*—located in field position 8 of the Suspicious Activity Information (3A) Record of the FinCEN SAR batch file—contains an “X,” which indicates that the corresponding FinCEN SAR contains an attachment. The count (i.e. sum) of all FinCEN SARs within the batch file that are associated with an attachment should appear in the File Summary (9Z) Record (field position 45-51).

- 2. Reference the FinCEN SAR Transaction Sequence Number in your attachment file name**

When naming your attachment file for a particular FinCEN SAR, you must first locate the unique transaction sequence number that has been assigned to the corresponding FinCEN SAR within the batch file (see field position 3-7 of the Suspicious Activity Information (3A) Record); you must reference the transaction sequence number at the beginning of your attachment file name, followed by an underscore (i.e. “_”) and a descriptive name to help identify the associated FinCEN SAR.

3. Include all attachments (associated with the FinCEN SAR batch file) in a single zip file

Subsequent to the file renaming for all attachments associated with your batch file, you must create a zip file composed of all attachments. When naming the zip file, be sure to use a descriptive file name to help you identify which FinCEN SAR batch your attachment zip file is associated with.

4. Add the attachment zip file to the FinCEN SAR Batch Form prior to submission

Once all required fields are complete and your FinCEN SAR batch has been attached to the FinCEN SAR Batch Form, locate the *Add File* button for attachments in order to add your attachment zip file to the FinCEN SAR Batch Form. Once the attachment file is attached, you may sign the FinCEN SAR Batch Form with your PIN, save, and submit.

Secure Data Transfer Mode Users

For filers using this option for filing, SDTM users can submit a single ZIP file containing the FinCEN SAR batch data and the corresponding attachment data. The ZIP file is composed of one FinCEN SAR batch data file and one attachment ZIP file. The attachment Zip file should follow the BSAR attachment specification described above. The ZIP file name must start with "BSARST." and end with ".ZIP". An example will be: BSARST.BSAR_batch.ZIP. FinCEN SAR SDTM batch files without any attachment can follow the existing naming convention: BSARST.<optional_file_name_and_extension>. Only ZIP compressed files are supported for the attachment file.

Attachment E- Batch File Sample Layouts

Submitting batch files in the correct format is vitally important because improperly formatted files may be rejected and can result in data entering FinCEN's System of Record database incorrectly. Batch filers will use the Financial Institution Where Activity Occurred (2B) Record and the Branch or Office Institution Where Activity Occurred (2C) Record for reporting information about the location(s) of suspicious activity(s). The 2B record identifies information regarding the financial institution where activity(s) occurred (required), whereas the 2C record identifies the financial institution's branch or office location where activity occurred (if applicable). Filers are permitted to associate up to 99 2B records, as well as 99 2C records for each 2B record, for a single suspicious activity report. However, filers are NOT permitted to associate multiple Suspicious Activity Information (3A) Records under one or more shared 2B/2C records.

General Rules:

Following are general rules for creating batch files with the required record layout.

1. Records must be in alphanumeric order for each SAR in the batch and grouped together according to their transaction sequence number. For example, a primary Subject (4A) Record cannot precede a primary Suspicious Activity Information (3A) Record if they both coincide with the same SAR in the batch. A subordinate Subject Identification (4C) Record cannot precede a subordinate Subject Address (4B) if they both coincide with the same primary Subject (4A) Record. The transaction sequence number associated with the first SAR in the batch will be "00001" and all subsequent records up to the Narrative (5A) Record associated with the first SAR will share the same transaction sequence number.
2. Subordinate records must follow the specific primary record they are associated with. A 4B record must follow the 4A record of the subject that has that address. A Branch or Office Institution Where Activity Occurred (2C) Record must follow the Financial Institution Where Activity Occurred (2B) Record of the financial institution that owns that branch. Do not, for example, place all 4B records following the last of multiple 4A records or all 2C records following the last of multiple 2B records unless they are only associated with the last of multiple records.
3. Individual subordinate records cannot be associated with multiple primary records. If two primary 4A record subjects have the same address, each 4A record

- must be followed by a separate subordinate 4B record containing that address. A 4B record following a second 4A record is not associated with the first 4A record. A 4B record following the first of two 4A records is not associated with the second 4A record.
4. There can be up to 99 of each of the subordinate 3B through 3F records associated with each primary 3A record in a batch file.
 5. There can be up to 99 of each of the subordinate 4B through 4I records associated with each primary 4A record in a batch file.
 6. There can be up to 20 Narrative Description (5A) Records associated with each SAR in a batch file.
 7. Do not include blank subordinate records in a SAR. If a subject does not have an alternate name, there will be no Subject Alternative Name (4D) Record following that subject's 4A record in the SAR.
 8. Do not include duplicate records in a SAR. A duplicate record occurs when one record is directly followed by a second record of the same record type that contains exactly the same data as the prior record.

Sample Layout:

Table 1 contains an example valid batch file record layout where multiple financial institutions, branch/office locations, multiple subjects, and subsidiary records are included designed to show the required positions and inclusion or exclusion of batch file records in varying circumstances.

Table 1 - Batch File Sample Layout

This batch file was transmitted by the 1A record transmitter for 2A record Filing Institutions A and B. Three SARs are filed under the 2A record for Filing Institution A and one SAR is filed under the 2A record for Filing Institution B.

SAR1, Financial Institution A-1 and Branch A-1.1: A single subject is involved with suspicious activity at a single financial institution and one branch location. This example contains all subsidiary 3B-3F and 4B-4I records to show their placement.

SAR2, Financial Institution A-1 and Branch A-1.1: A single subject is involved with suspicious activity at a single financial institution and one branch location. This example has a 3B commodity type record and a 3C product/instrument description type record subordinate to the 3A record. The 4A record only has single 4B address, 4C identification, and 4H relationship records followed by two 4I account records for two account numbers. This SAR has multiple 5A narrative sections.

SAR3, Financial Institution A-1 and Branches A-1.1 and A-1.2, Financial Institution A-2 and Branch A-2.1: two subjects involved in suspicious activity at two different financial institution, one with two branches and one with one branch. There are no subsidiary records following the 3A record. Subject 1's 4A record has single 4B address and 4C identification records and two 4H relationship records, one for each 2B financial institution. Subject 2 has only one of various subsidiary records including one 4H relationship record because Subject 2 has a relationship with only one of the institutions.

SAR4, Financial Institution B-1 with no branch activity and Financial Institution B-2 with Branches B-2.1 and B-2.2: A single subject is involved in suspicious activity at two institutions, one with two branch locations. All information about the subject and the subject's possible relationship to the financial institutions is unknown.

Subordinate records have been indented for clarity.
